

# Snake

## Warrant

When you walk into a room  
Like you've been eating all your life out some silver spoon  
And your life sucking all of your shit  
Like you are so damn sure everybody is fighting in to win  
And you are shy as you can be  
And you don't want nothing unless is coming for free  
Your disrespect got me seeing red  
... you won't quit... my arms... shot from your head

Like a snake in the grass  
When you take you don't ask  
Think you get it over on me  
Listen up  
Snaaake  
Snaaake

Listen I... I've seen your kind  
Is with some pretty little words around confuse their minds  
Now listen up I know you well  
And I sure I don't need the kind of joke you're trying to sell

Like a snake in the grass  
Well you take you don't ask  
And you think you get it over on me

Listen  
You're a snake in the grass  
Well you take you don't ask  
Think you get it over on me  
Check it out

Snaaake

Ouuu!

Now you're snake in the grass  
When you take you don't ask  
Think you get it over on me

Listen

You're a snake in the grass  
And you take you don't ask  
You think you get it over on me

You kiss my ass
