

## Fire in the Kitchen

Warren Haynes

Midnight another day in the life of a loser  
Spotlight moon shining over head  
This part of the city sleeps with one eye open  
Bars on the door protection by the bed

There's a child with a gun tired and on the run  
Black brown blue what does it matter?  
And there's 15 more down on every corner  
Stranded no place left to turn

Fire in the kitchen  
Fire in the kitchen burning down  
Fire in the kitchen fire  
Lord send us some cool cool water or  
Ain't nobody gonna get no sleep tonight

Cold day another cold cold day in hell  
What you sow so shall ye reap  
Bedlam spreading like a rumor  
Can't take people and push them out in the street

Fire in the kitchen  
Fire in the kitchen burning down  
Fire in the kitchen fire  
Lord send us some cool cool water or  
Ain't nobody gonna get no sleep tonight

There's a child with a gun tired and on the run  
Black brown blue what does it matter?  
And there's 15 more down on every corner  
Stranded no place left to turn
