

Carousel Love

Warren Hue

Would you go and talk to me if your up
Instead of going far from me and my love
I'll let you go outside this place
Far from where we used to young

Would you go and talk to me if your up
Instead of going far from me and my love
I'll let you go outside this place
Far from where we used to young, young, young

Lately you never
Picking up my line
My line again
I'll try again

Lately, you never saying If I'm fine
I'm fine again
I'll try again

I'm waiting for you
Like the line in a carnival
Once I reach its impossible
To go through all this shit feeling comfortable
Ups and downs
I get ups and downs
Yeah
You get ups and downs

Let's make it to rodeo
On an avenue, from 8 till 4
In the afternoon
I'll see you from a distance
Afternoon I'll see you from a distance

My head is spinning round and round like a carousel, I'm wondering
Spinning round and round till I reach to you

Would you go and talk to me if your up
Instead of going far from me and my love
I'll let you go outside this place
Far from where we used to young

Would you go and talk to me if your up
Instead of going far from me and my love
I'll let you go outside this place
Far from where we used to young, be young (oooohh)

My head is spinning round and round like a carousel, I'm wondering
Spinning round and round till I reach to you

My head is spinning round and round like a carousel, I'm wondering
Spinning round and round till I reach to you

I'll let you go outside this place, far from where we used to be young, yeah
yeah
