

She don't got time she don't got time
Where she resides she feel alive
Yeah, she gon' undress
She don't address it unless it feel not right
Open up that situation
You coping with my bands and your friends
She don't got time she don't got time
Where she resides she feel alive

Don't need me
I'm making it right
If it's out of sight it's out of mind
If he on your mind don't push me aside
I'm living for highs they living for likes
I'm with the dawgs and these bitches get chewed up, aye
I'm expecting you to see more in me
Ya ya
I'm ducking your friends cause they compliment you too much
You taking your time and I know it's sweet
Yeah

She don't got time she don't got time
Where she resides she feel alive
Yeah, she gon' undress
She don't address it unless it feel not right
Open up that situation
You coping with my bands and your friends
She don't got time she don't got time
Where she resides she feel alive

Hennessy aye
Mix it up pour it up going nuts aye
I'm with my bro we ain't slowing up aye
Open my heart like a comme de gar aye
Losing my focus not part of my plans
I'll fly to New York to show you my plans
Owe it all to you like this an advance aye
She with a goat I call her Lil Yachty
Dripped up in chrome smoke on exotics
Overthinking bout the ways you could call me
I be in my feelings not in these parties yea
Not in these lobbies
At the crib and shit get harder to process
Independent and I know you don't need me

She don't got time she don't got time
Where she resides she feel alive
Yeah, she gon' undress
She don't address it unless it feel not right
Open up that situation
You coping with my bands and your friends
She don't got time she don't got time
Where she resides she feel alive
