

SPLIT

Warren Hue

Can I vent for you nah nah I've been
Sentimental with my songs I've been
Sipping on, silence, slipping off, wilding, tripping off guidance

Can I vent for you nah nah you've been
Sentimental with my songs you've been
Sipping on, new shit, tripping off in Paris, gripping onto past things

Said I got it for you
Said I'm sliding in 2
Know I say that a lot
But you got me in my mood
Got a lot to consume
I don't got lot of room
Know I'm wilding for you
Know I'm wilding you knew
Oooo

Said you'd split the life you live I've been
Focused on my outer skin I've been
Sipping on, silence, sitting on, process
Tripping off guidance

Said I'd split the life I live you've been
Focused on some other shit you've been
Sipping in, private, sitting on, process, dipping off why would you now?

You know that I got everything
You know that I got everything
You know that I want permanent, permanent, permanent, you know that I want everything, everything, ya ya
