

Sugarbaby

Warren Hue

Yo' hold up are you sure this place is really it?
It's like, two thirty-four A.M. in this bitch
And we're entering Sugartown
Bro like, what have you heard about this place?

You the only reason
Why I'm comin' through so late
Why I'm comin' through so late
Let's have some dinner at your place
Let's have some breakfast at mine
Callin' yo' ex I don't hate that
But I just wish this time would stop

Stop that I just want you (I just want you)
Need to recollect my feelings
Put 'em back through my body and you
My baby (x5) (Yuh)
Slide through the boy dm (Aye)
Do you got a boy? I don't see 'em (Aye)
We can just fuck till the P.M. (Yuh yuh)

She from Huston
Baby why you make this shit confusin'
Back on my bullshit
Like I'm wearing red on my full fit
Hit the full thing like a pool stick (Yuh)
You be lookin' skinny like a ruler, tall
Hold up lemme' get in it like I'm scuba, divin
Don't even start with that shit
You like Stark with that chest
How your heart is an iron

Dancin' with me you be dancin' with me
See you movin' slowly I don't gotta repeat yeah
Will you like me back sometime?
Will you like me back sometime? yeah

Dancin' with me on the camera, action
An' I love you to bits let me know what I'm askin'
Will you like me back sometime?
Will you like me back sometime? yeah

I'm so in love I just pretend to be
Melodies, stuck in my head, I need more clarity
Then repeat, same shit, days go by, therapy
I need, starin' how I'm comparin' the height of stairs and see
Look, apparently I care about your energy
Guaranteed, I'll swim with barracudas and my enemies
To see your face, I peep that range, you far away
To get to you I need an orange fit and ten of me

Eventually I'm never there let attendance speak
Sound like I'm smilin' all the time like flight attendants speeches
I put my pen, and read this
I told you please just keep it
I'm givin you all of me, like I'm dependent on it
I got a pennant on me, independent OG

She really be herself but she romancin' on me
She be dancin' on me, can you balance with me
Reminisce about the times that you went up on me

Dancin' with me you be dancin' with me
See you movin' slowly I don't gotta repeat yeah
Will you like me back sometime?
Will you like me back sometime? yeah

Dancin' with me on the camera, action
An' I love you to bits let me know when I'm askin'
Will you like me back sometime?
Will you like me back sometime? yeah

What, am I, supposed, to feel like
8-bit bitch how I feel, this is real life, damn
Why you treat me like I'm supposed to
Kill my attitude, chill my status, you
Know that I'm not the type to experiment like Bill Nye
Ex-therapist told me Pills Might work, could have been my thirst
Ah shit, this ain't workin'
Curvy, you be lookin' so fine like perfect
Cool, that's a Kanye tag
Good music I need like the Kanye brand
Shit ain't Yeezy
You've been at it tough thought its easy
Bleeding, keep it 3K like I'm André (Fax)
I'm on this shit A\$AP
Like the Don came back
From Swe' I do not see why the wrong came last
Like Lebron say that
I be ballin' while you callin' me a fraud
When I pause just to call yo' ass

Dancin' with me you be dancin' with me
See you movin' slowly I don't gotta repeat yeah

My baby, my baby, my baby
Will you let me buy some time
Will you let me buy some time, yeah
Will you let me buy some time
Will you let me buy some time, yeah
Will you let me buy some time, yeah
Will you let me buy some time, yeah
