

# Bad

Warren Zeiders

She got me out of my element  
Takin' me to places that I've never been  
Way up to heaven and back to hell again  
Why she make me sick when she my medicine?

My medicine, got me goin' ooh  
What the hell she puttin' me through?  
Ain't nothin' I won't do  
She know she got me right where she want me

Ooh, that girl's so bad, bad  
But she's still the best I ever had, had  
Way she look, it's hard to stay mad-ad  
A couple broke hearts, we make a little love  
Then we fall apart, so bad, bad  
If she caught me, I'd be runnin' right back  
What I wouldn't do to get those nights back  
I never let her go, she do all the things  
That the good girls don't, so bad, bad  
So bad

She got me goin' out my mind  
Got me chasin' love across them county lines  
Try to cut her off, can't even count the times  
Now, I'm buyin' her another round tonight  
Another round tonight

'Cause she bad, bad  
But she's still the best I ever had, had  
The way she look, it's hard to stay mad-ad  
A couple broke hearts, we make a little love  
Then we fall apart, so bad, bad  
If she caught me, I'd be runnin' right back  
What I wouldn't do to get those nights back  
I never let her go, she do all the things  
That the good girls don't, so bad, bad  
Bad, bad

Ooh, ooh, what the hell she puttin' me through?  
Ain't nothin' I won't do  
She know she got me right where she want me

Ooh, that girl so bad, bad  
But she's still the best I ever had, had  
Way she look, it's hard to stay mad-ad
