

Some Whiskey

Warren Zeiders

Some whiskey on ice sounds pretty damn good again tonight
Some Tennessee or Kentucky's gonna set me right again tonight

And goodbye hurts
Some whiskey works
When I'm drinking alone
Some whiskey don't

Some whiskey's good in a shot
Some you sip on the rocks
Some you raise up and drink
Some burn up every memory
I've been drunker than hell
Tried every one on the shelf
From every shelf in this town
But I ain't found one that brings you back

Jim Beam didn't turn your high beams back around
And that Black Label Jack didn't hold you from rolling outta this town

You're driving away
Driving me insane
Whiskey and tears
Pour like rain

Some whiskey's good in a shot
Some you sip on the rocks
Some you raise up and drink
Some burn up every memory
I've been drunker than hell
Tried every one on the shelf
From every shelf in this town
But I ain't found one that brings you back
Brings you back, brings you back
No, I ain't found one

Some whiskey's good in a shot
Some you sip on the rocks
Some you raise up and drink
Some burn up every memory
I've been drunker than hell
Tried every one on the shelf
From every shelf in this town
But I ain't found one that brings you back

Brings you back, brings you back
Brings you back
