

# Kicked In The Head

Warzone

I've felt suicide  
It's deep in my eyes  
I've seen homicide  
I know I'm gonna die  
I live by the gun  
You live on the run  
Now you feel you're at the end

Kicked in the head, kicked in the head  
Kicked in the head, kicked in the head

Everyday I feel like there's nowhere to turn  
My mind's going crazy I can feel it burn  
With all life's mistakes you think I've learned  
Not to forget the choices that I've heard

Kicked in the head, kicked in the head  
Kicked in the head, kicked in the head

No life, time to die  
No reason, full of lies  
No hope, you can't see  
One chance, on the edge  
Time is near one last time  
One more bullet for your mind  
Now you feel you're at the end

Living a life on the run  
Got that bullet, got that gun  
and if you get that feeling again,  
then you know that you're dead

Kicked in the head  
Kicked in the head  
Kicked in the head
