Don't Go

Washed Out

It keeps raining
Each and every day
Keep waiting for
The clouds on its way
A darkness
Never leaves the sky
Storms all the time

I can feel it
Deep inside my bones
You're leaving
You wanna let me go
I know it's done
When the clouds roll back
We'll shine on
Shine on

Don't go and leave me here by myself
I know you feel like there's nothing left
Just keep holding on till the worst is gone
We can turn this around

Can't believe it
I thought we'd come so far
Now you're leaving
But I can't just let you go
I know it's hard
If you'll just come back
We'll fight on
Fight on

Don't go and leave me here by myself
I know you feel like there's nothing left
Just keep holding on till the worst is gone
We can turn this around

Don't go
Don't go
