

## Got Your Back

## Washed Out

I know  
You're all worn-out  
Lost hope  
No one to turn to now

Just know inside  
There's hope to find

Everywhere you go  
No matter where you are  
Just know that  
I've got your back

When you're feeling lost  
With no one else to call  
I swear it  
I've got your back

I know  
Your luck's been down  
Fed up  
You think there's no way out

Just know inside  
There's hope to find

Everywhere you go  
No matter where you are  
Just know that  
I've got your back

When you're feeling lost  
With no one else to call  
I swear it  
I've got your back

You know it's fine
