

Haunt

Washed Out

Every night
You're right beside me
In my mind
You come and haunt me
I can't get past the
Thing I did wrong
Broke your heart now
I can't move on
What's going on inside
Inside my mind

I can't hide
The dreams will find me
I close my eyes
You come and haunt me
Live in the night
She wept like a child
I can't fight it, I can't get up
What's going on inside
Inside my mind

It all keeps coming back
Memories I'd been trying to hide
Holds me down, can't get out
Love it all

Live in the night
Wept like a child
I can't fight it, I can't get up
What's going on inside
Inside my mind

It all keeps coming back
Memories I'd been trying to hide
Holds me down, can't get out
Love it all
