

## Too Late

## Washed Out

I saw you there  
Waiting outside  
I couldn't tell  
If you and I'd met  
Before tonight  
When I asked you for a light

I think at first  
You were a little bit shy  
I was a bit reserved  
But I could see in your eyes  
The time was right  
And our night's not over yet

Is it too late to fall in love tonight?  
Cause I'm falling hard  
Is it too late to fall in love tonight?  
Cause I'm falling hard

I took your hand  
And led you outside  
You didn't care  
When you gave me a smile  
Then that was that  
I knew our night's not over yet

Our time is running out  
The sun's almost coming up

Is it too late to fall in love tonight?  
Cause I'm falling hard  
Can't believe how fast the sparks can fly  
When the stars align

Is it too late to fall in love tonight?  
Cause I'm falling hard  
Can't believe how fast the sparks can fly  
When the stars align
