

## **Waking Up**

**Washed Out**

I know inside  
I've felt it all my life  
And I'm finally waking up

I think it's time  
I feel it slowly come alive  
There's no turning back now

Just let go  
It's taking hold  
It's almost time to soar

You've lost control  
And before you know  
You're finally waking up
