Washington

You're all restless, quiet, careful  
I get careless, This is simple  
How you keep so still, I never know  
You'd give your kingdom just for one more hour  
one more hour, one more hour  
Jesus please

Is it fiction or salvation?  
How you dream with your eyes open?  
I fall for, I fall before you  
So now I see won't you sleep for..  
One more hour, one more hour, one hour  
Won't you please?

In the dark, I shake  
R on now I know you  
In the light, hold me  
In the dark, you are taking flight  
Hold it down, hold it down, hold it down  
'til morning comes and you feel alright  
Hold it down

You're all restless, quiet, careful  
I get careless, This is simple  
One more hour, one more hour, one more hour, one more hour  
Jesus please..

In the dark.. oh I shake  
Now I know.. Now I show you
