

# Remember When

Wasia Project

Remember when we talked till dawn  
Saw the night fade into morning  
In that moment you were mine  
Time was all it was, but now it's gone

When I called on the angels  
Could've sworn that I heard you cry  
"Oh, my darling, I know  
But all things must come and go"  
That's life, though  
Everything must come to dust  
Dust, dust

Remember when he built a house  
Wooden walls and the rainfall  
Never told us he would go away  
So soon, so soon

When I called on the angels  
Could've sworn that I heard you cry  
"Oh, my darling, I know  
But all things must come and go"  
Oh

And when the tide comes crashing in  
The weight of my life will follow me into the waves

When I called on the angels  
Could've sworn that I heard you cry  
"Oh, my darling, I know  
But all things must come and go"  
That's life, though  
Everything must come to dust  
Dust, dust
