Takes Me Back Home

Wasia Project

I don't know what it is
Something about this
Takes me back home
And makes me feel warm
See how he looks at me
Feel electricity
Race through my bones
He takes me back home

And I know
I can't save him from the fire
But I'm cold
And I want it more than ever
And nobody's watching if I follow
If I go

I need you here with me
I need you right now
To take me back home
And make me feel warm
See how you look at me
Feel electricity
Race through my bones
You take me back home

And I don't wanna ever have to change
'Cause you were always there when I was down
But looking back I never had to stay
If I would only end up on the ground
The ground
