

Lighthouse

Wasted Penguinz

In need of a light in the dark
Weep over the stray way too far
The closer the more we're apart
I just wanna give you my heart
Just like a light a fire or some kinda spark
We need to sign that kinda flame in my heart
So broken arrow can not tear us apart
Even straight to the heart

We got lost
We got lost
We are searching for a spark
We got lost
Like a lighthouse in the dark
Like a lighthouse in the dark
We got lost
We go lost
We are searching for a spark
We got lost
Like a lighthouse in the dark
Like a lighthouse in the dark
