

## Front Row

## Waterloo Revival

Your little black dress is fallin' on the floor tonight, tonight  
My hot mess, you know how to play it just right, right  
Take it nice and slow  
With the candles burnin' low

There you go  
Settin' this house on fire  
Let's lock the door  
And watch these flames grow higher  
No, I don't wanna miss a thing  
Love the way you work the room  
Baby, the way you move  
Has got me losin' control  
Tonight you're puttin' on a show  
And I'm sittin' front row

You a good girl bringin' out your wild side  
My eyes follow you like a spotlight  
Watchin' your skin glow  
With the candles burnin' low

There you go  
Settin' this house on fire  
Let's lock the door  
And watch these flames grow higher  
No, I don't wanna miss a thing  
Love the way you work the room  
Baby, the way you move  
Has got me losin' control  
Tonight you're puttin' on a show  
And I'm sittin' front row

Bitin' your lip, slow dancin' to your favorite song  
Come a little closer  
Let's turn these two shadows into one

And there you go  
Settin' this house on fire  
Let's lock the door  
And watch these flames grow higher  
No, I don't wanna miss a thing  
Love the way you work the room  
Baby, the way you move  
Has got me losin' control  
Tonight you're puttin' on a show  
And I'm sittin' front row

Front row  
Front row  
Yeah, I'm sittin' front row  
Front row  
Front row  
Yeah, I'm sittin' front row
