

# Summer Thing

Waterloo Revival

Sun crashin' down on the beach  
Laid back underneath a palm tree  
Your right hand sippin' on an ice cold drink  
Left hand slidin' down bikini strings  
You got the hot  
I got the cold beer  
You call the shots as long as we're here  
Watchin' our worries disappear

You burnin' me up with that sun-kissed skin  
Lose my mind every time you lean in  
Girl, you know I wanna  
Tell me if you wanna  
We ain't gotta put no label on it  
We could call it anything  
I'm thinkin' it's more than a summer thing

Draw a heart 'round our names in the sand  
We slow dance to a reggae cover band  
Feelin' like one of those nights  
You don't wanna end

You burnin' me up with that sun-kissed skin  
Lose my mind every time you lean in  
Girl, you know I wanna  
Tell me if you wanna  
We ain't gotta put no label on it  
We could call it anything  
I'm thinkin' it's more than a summer thing

You got the hot  
I got the cold beer  
You call the shots as long as we're here  
Watchin' our worries disappear

You burnin' me up with that sun-kissed skin  
Lose my mind every time you lean in  
Girl, you know I wanna  
Tell me if you wanna  
We ain't gotta put no label on it  
We could call it anything  
I'm thinkin' it's more than a summer thing

Yeah, more than a summer thing

More than a summer thing

Oh, my little summer thing

More than a summer thing
