Everything

Watermark

Everything, Lord, I bring everything
I lift my hands and show You what I bring
I bring You everything

Everything, Lord, I bring everything
Your heart rejoices and the angels sing
When I bring everything

All of my heart I give
My life is to You an open door
And Spirit, You're welcome to walk right through
And take with You

Everything, Lord, I bring everything
All I want is for you to be
To be my everything, yeah yeah

All of my heart I give
My life is to You an open door
And Spirit, You're welcome to walk right through
And take with You, yeah

Everything, Lord, I bring everything
I lift my hands and show You what I bring
I bring You everything, I bring You everything

Everything, Lord, I bring everything
All I want is for you to be
To be my everything, to be my everything
To be my everything, yeah yeah yeah
