

A NIGHT OUT ON EARTH

Waterparks

Am I missin' out? Am I havin' fun?
Is it just me or is it everyone?
Desensitized, the love I get is virtual
Now Jesus hates my guts, it's gettin' personal (Yeah)

It's a night out on Earth
The last one for a while, can't get worse (Uh-huh)
A night out on Earth
A night out on Earth

Now if I ever feel jealous (What?)
I just turn it into lyrics and I fuckin' sell it
And now when I get depressed and make songs
I turn pain into rent and sing along
So I get hit by Houston friends like, "Do you remember me?"
Some version, I guess (Dude, oh my god, just, just fuckin')
Tell me what you want about your brand, band
Will I make a post shoutin' out your lemonade stand? Nah
"Oh, come on man, we're bros
Like, I've known you forever, watched your little band grow"
But now it's fuck you and everyone you know
And I'm gonna make sure you get it through your head before you go (Asshole)

See, now I wear my red flags like a cape
Got superhuman strength when I'm fuckin' up your day
I'm comin' in first, so pour the Gatorade
Life gave me lemons, now I bleed lemonade (Yeah, yeah, yeah)
Now I wear my red flags like a cape
Gets so fuckin' hot under all this shade
Everywhere I walk's a toxic parade (Let's go)
The glove don't fit, but I wear it anyway, yeah, yeah (Let's go, yeah)

It's a night out on Earth
The last one for a while, can't get worse
A night out on Earth
A night out on Earth

(Fuck)

(What I'm saying, the bottom line is)
I could drive my Lexus overnight back home to Texas
I could fall asleep in my old bed
'Cause life got kinda hectic on the day I got my necklace
Now I just wanna fall asleep in my own
It's a hell of a time, was I loved or was I right?
I kissed a couple people in a week
Am I gonna go to Hell in my sleep or will God forgive me?
I gotta hide everybody that I like
Did therapy four times this week from my bike
Born January 17th, I'm overthinkin' everything
A Capricorn with double horns
Like triple six but, babe, I'm fuckin' dyin' for you
If it was up to me, no one I know would know anyone I know
'Cause everyone I know knows another me
It's gettin' hard to keep track of
Everything I keep locked behind my back (Let's go)

'Cause it's a night out on Earth
Just another night out on Earth
A night out on Earth
It's just another night out on Earth

I ain't jumpin' out the window
I'm leavin' when the night goes
I ain't gonna let go
Stay jumpin' at the tempo
'Cause that's just how this shit goes
I ain't jumpin' out the window
Stay livin' at the tempo

With "I'm a Natural Blue"
And I'm very stoked to have them on the phone right now, what's up?
Hey, how's it goin'?
Goin' good, how are you?
Hey, I'm doin', not doin' too bad
No complaints on this beautiful day
Nope, not at all
Everyone, get stoked, check out Waterparks
Thank you so much to Otto and Awsten for calling in
Once again, this is Waterparks
