

# FUCK ABOUT IT

## Waterparks

I like you but I need some space  
I like you kinda far away  
It's not hard to kill a day  
Lookin' at your face  
I like you but I need some room  
Been givin' me your attitude  
It doesn't always stay that way  
I hate the aftertaste

I don't wanna leave you hangin' on  
But when we fight, it's like a marathon  
Give me three days, three days alone, yeah

We can fuck about it later, if you want  
It's all we ever really do when something's wrong 'cause you  
You don't seem to like it when we talk  
I guess I'll see you later, see you later  
We can fuck about it later, if you want  
Because we never fix the problems that we've got, baby  
You don't seem to like it when we talk  
I guess I'll see you later, see you later, yeah

You've been at my crib for like the seventh day up in a row  
You've been doing silly things like checking who I follow  
I know you waitin' by the phone  
But I just wanna be all alone, tonight  
And it's all right, I won't lie to you  
But sometimes, when we fight  
It's like scars on my wrist  
When I think about the shit that we did to one another, baby

We can fuck about it later, if you want  
It's all we ever really do when something's wrong 'cause you  
You don't seem to like it when we talk  
I guess I'll see you later, see you later, yeah  
We can fuck about it later, if you want  
Because we never fix the problems that we've got, baby  
You don't seem to like it when we talk  
I guess I'll see you later, see you later, yeah  
Yeah

I don't wanna leave you hanging on  
But it's kinda hard to miss who's never gone  
Give me three days, three days alone, yeah

We can fuck about it later, if you want  
It's all we ever really do when something's wrong 'cause you (When something  
's wrong)  
You don't seem to like it when we talk  
I guess I'll see you later, see you later (Yeah)  
We can fuck about it later, if you want  
Because we never fix the problems that we've got, baby  
You don't seem like it when we talk  
I guess I'll see you later, see you later, yeah

We can fuck about it later, if you want  
It's all we ever really do when something's wrong 'cause you

You don't seem to like it when we talk  
I guess I'll see you later, see you later
