

Gladiator (Interlude)

Waterparks

And what it comes back to is gladiators
Make them fight to the death
And they would cheer on a gladiator
But the whole time the gladiator wasn't fighting 'cause he like
d fighting
He wasn't fighting because he-of anything else
He was fighting completely for survival
And his whole survival completely relied upon a stadium full of
people
That's why, that's why the media is like-
Because they just wanna see you and that fucking other guy figh
t
It's literally fucking gladiators, they love to see-
It's, like, crazy because the whole fucking thing
Is all built off of a gladiator mentality
The only way to, like-
To, like, really participate in "juking" the system
The only way is to, like
Come out of your human self
