

LOVE ABOUT IT

Waterparks

I like you but I need some space
I like you kinda far away
It's not hard to kill a day
Looking at your face
I like you but I need some room
Been givin' me your attitude
It doesn't always stay that way
I hate the aftertaste

I don't wanna leave you hanging on
But when we fight, it's like a marathon
Give me three days, three days alone, yeah

We can love about it later, if you want
It's all we ever really do when something's wrong, 'cause you
You don't seem to like it when we talk
I guess I'll see you later, see you later
We can love about it later, if you want
Because we never fix the problems that we got, baby
You don't seem to like it when we talk
I guess I'll see you later, see you later, yeah

You've been at my crib for like the seventh day up in a row
You've been doing silly things like checking who I follow
I know you're waiting by the phone
But I just wanna be all alone, lone tonight
And it's all right, I won't lie to you
But sometimes, when we fight, it's like
Scars on my wrist when I think about the sh-
That we did to one another, baby

We can love about it later, if you want
It's all we ever really do when something's wrong, 'cause you
You don't seem to like it when we talk
I guess I'll see you later, see you later, yeah
We can love about it later, if you want
Because we never fix the problems that we got, baby
You don't seem to like it when we talk
I guess I'll see you later, see you later, yeah
Yeah

I don't wanna leave you hanging on
But it's kinda hard to miss who's never gone
Give me three days, three days alone, yeah

We can love about it later, if you want
It's all we ever really do when something's wrong 'cause you (When something
's wrong)
You don't seem to like it when we talk
I guess I'll see you later, see you later (Yeah)
We can love about it later, if you want
Because we never fix the problems that we got, baby
You don't seem to like it when we talk
I guess I'll see you later, see you later, yeah

We can love about it later, if you want
It's all we ever really do when something's wrong, 'cause you

You don't seem to like it when we talk
I guess I'll see you later, see you later
