

We Need To Talk

Waterparks

Your mama likes me and she doesn't like anyone
Your dumb drunk friends don't care for me, yeah, and I always told you so

I wish you didn't tell me I was special
Cause now it's far too hard to see through
Cause you shine brighter than morning
At least I thought you did

I really thought you were my four leaf clover
I know I'm lonely but I won't come over
I really thought you were my four leaf clover
I really thought that I was lucky
I really thought you were my four leaf clover
I know I'm lonely but I won't come over
I really thought you were my four leaf clover
I really thought that I was lucky, fuck me

I'm apathetic from this year long deficit
You don't like drama so why you wanna live on top of it?
I'm sorry I don't hack your phone like he did
And when you need space to breathe I leave it
But who needs space from across the country?
I'm accustomed to feel like nothing, fuck me

I wish you didn't tell me I was special
Cause now it's far too hard to see through
Cause you shine brighter than morning
At least I thought you did

I really thought you were my four leaf clover
I know I'm lonely but I won't come over
I really thought you were my four leaf clover
I really thought that I was lucky
I really thought you were my four leaf clover
I know I'm lonely but I won't come over
I really thought you were my four leaf clover
I really thought that I was lucky, fuck me

This line's here to make you think of Burbank
And all our first firsts that we lived in LA
I carried you down the stairs every day
This lines here to say fuck the 100
Now out of state plates make me think of something
This lines here to make you think of your nose twitch
The one I always loved but you were so self-conscious
I'm haunted

Your mama likes me and she doesn't like anyone
Your dumb drunk friends don't care for me, yeah, and I always told you so

I really thought you were my four leaf clover
I know I'm lonely but I won't come over
I really thought you were my four leaf clover
I really thought that I was lucky
I really thought you were my four leaf clover
I know I'm lonely but I won't come over
I really thought you were my four leaf clover

I really thought that I was lucky, fuck me

(Cause you shine brighter than morning
At least I thought you did)
(I carried you down the stairs every day)
