

# calla

wave to earth

It's raining hard today  
It's a bit too much for me  
I know it will make you smile  
So let ourselves get wet inside the rain  
The whole world is getting filled with your scent  
Hope this moment is not a daydream

Calla, someone said that your time  
Will be over soon  
But Calla  
You can always grow back  
If you don't have enough sunlight  
I'll blow the clouds away  
Calla

Bloom yourself until the end  
Wherever you are, I'll be there for you  
My whole world is filled with your scent, babe  
I hope this moment's not a daydream  
Raindrops shines like the stars  
Well everything shines when I'm with you, babe  
Raindrops falls like comets  
I'll make this moment not be a daydream

Calla, someone said that your time  
Will be over soon  
But Calla  
You can always grow back, oh  
If you don't have enough sunlight  
Calla, someone said that your time  
Will be over soon  
But Calla  
You can always grow back, oh  
If you don't have enough sunlight  
I'll blow the clouds away  
Calla
