

play with earth!

wave to earth

Uhm, something's goin' wrong
Our days are so long
It feels like we don't belong
Just leave this world behind
We've still got so much to feel

Everything is ours
The shimmer of the waves
Echoes like our dreams
And we just embrace the flow
Playing with the Earth, you know
In this endless glow

Yeah, so finally
It's started
A crazy days without us
But no one cares about us
So, We just dance, we just dance

Everything is ours
The shimmer of the waves
Echoes like our dreams
And we just embrace the flow
Playing with the Earth, you know
In this endless glow

Everything is ours
The shimmer of the waves
Echoes like our dreams
And we just embrace the flow
Dancing with the Earth, you know
In this endless glow

Dancing with us
Dancing with us
Dancing with the Earth, you know
In this endless glow
In this endless glow
