

sunburn

wave to earth

Who threw rubbish filth in the sky?
The sun is burning with a black smoke
Oh, smoky haze in my eyes
I could not tell if the sun has gone black

When the sunburn hurts
The sky is already dark
Waiting for tomorrow
The darkness doesn't cool down the air

Can't settle in, dust all around
Suffocating me, can't escape this ground
Feels like the dust is part of me
Burning in the sun
Will I disappear
Am I free?

When the sunburn hurts
The sky is already dark
Waiting for tomorrow
The darkness doesn't cool down the air

When the sunburn hurts
The sky is already dark
Waiting for tomorrow
The darkness doesn't cool down the air

Dust all around
It's all I see
Yeah I'm burning with the sun
With the sun
