I can take in the air
I can take in the air
I can take in the air
I can take in the air
And I don't know why but I'm not feeling well

I'm going through hell
I'm going through hell
I'm going through hell
I'm going through hell
And I don't know why but I'm not feeling well

I know that you don't believe in me, girl
I know that you don't believe in me

I'm going nowhere, but I need you
I know that you don't believe in me, girl
I know that you don't believe in me
I'm going nowhere, but I need you

I know that you don't believe in me, girl
I know that you don't believe in me
I know that you don't believe in me, girl
I know that you don't believe in me
