

# Big Nothing

Wavves

I'm just trying to get a reaction  
My mind gets carried away  
I should control what I'm thinking  
Probably stop drinking  
But my mouth fires a missile a day

Where were you going that day  
I did not lie  
But I am not gonna stay  
I got so high  
Turn off the oven  
It's only a big nothing  
From here out

I'm just trying to find out what happened  
Is everybody okay  
I spent my whole life tripping  
Trying to not slip in  
But the puddles right in front of my face

Where were you going that day  
I did not lie  
But I am not gonna stay  
I got so high  
Turn off the oven  
It's only a big nothing  
From here out

Where were you going that day  
I did not lie  
But I am not gonna stay  
I got so high  
Turn off the oven  
It's only a big nothing  
From here out

Where were you going that day  
I did not lie  
But I am not gonna stay  
I got so high  
Turn off the oven  
It's only a big nothing  
From here out  
From here out
