

Come to the Valley

Wavves

So come to the valley
To the valley, to the valley, to the valley
Come to the valley
To the valley, to the valley, to the valley

Bath in the sun
And wash your pretty hair
You've already won
There's no need for despair

You don't cry
Dry your eyes

So come to the valley
To the valley, to the valley, to the valley
Come to the valley
To the valley, to the valley, to the valley

Do what we want
And live without a care
There's no need to run
And no need to be scared

You don't cry
Dry your eyes

Cry
You don't cry
Dry your eyes

So come to the valley
To the valley, to the valley, to the valley
So come to the valley
To the valley, to the valley, to the valley
