Wavves

I can't pick myself up off the ground
Try to do different things
But I don't know how
Where do I go from here now
My world is ending
I know I gotta get out

I can't pick myself up off the couch
Try to do different things
But I don't know how
Where do I go from here now
This world is ending
I know I gotta get out
Destroy

I can't seem to get out of shroud
Pissed off mom but did dad proud
So he's taking me out of here now
Cause your world is ending
I don't belong here now
It's time to destroy
