

Marine Life

Wavves

I thought I'd miss you every night
I loved and kissed you every night
But it feels so different every time that I'm with you
That I'm with you

My mouth is dripping, open wide
Baby, you're gifted, you're my prize
My heart gets lifted every time that I'm with you
That I'm with you
When I'm with you
That I'm with you

It's the same energy
It won't change till you leave me here
I'm alright, you can leave
Or you can bleed me here another night
It's the same melody
It won't change till you leave me here
I'm alright, you can leave
Or you can bleed me here another night

When I'm with you
When I'm with you
When I'm with you
