

Sinking Feeling

Wavves

It's there on your face
It sits in your mind
It's like this all the time
Inward [?]
With visions of death
Slips into your dreams
It's all that you hear
It's so fucking weird
Sets your chest on fire
A terrible sound
That travels around
Watch you go away

Sinking feeling [?]
And I feel it comin' on
Sinking feeling [?]
And I feel it, feel it

A stone in the sea
Is swallowing me
Drifting into the ground
An incoming tide
So fierce you can't hide
Takes you until you drown
[?] the sand
That fell through your hand
Slips into the depths
Into the abyss
From the edge of the cliff
They watched you go away

Sinking feeling [?]
And I feel it coming on
Sinking feeling [?]
And I feel it on and on
And I want you to know
Sinking feeling

Sinking feeling [?]
And I feel it coming on
Sinking feeling [?]
And I feel it on and on
And I want you to know
I got a sinking feeling [?]
And I feel it coming on
Sinking feeling
