

# Such a Drag

Wavves

It seems like such a drag  
Wait for the sign  
In the back of my head  
Know it's over, know it's over  
Thunder like a jet  
Won't breathe again  
In the back of my head  
Know it's over, know it's over

Walk straight into the sun  
Counting steps as I run  
Turn my head towards the light  
And I walk straight into the sun

Running from the dead  
Just breathe it in  
In the back of my head  
Know it's over, know it's over  
Thunder like a jet  
Just breathe it in  
In the back of my head  
Know it's over, know it's over

Walk straight into the sun  
Counting steps as I run  
Turn my head towards the light  
Walk straight into the sun
