

# Dragon Chasers

Wax Tailor

It has been a while  
Since I've seen you smile  
I'm even wondering  
If I ever knew you at all

You've been chasing time  
You say that you are fine  
But I guess what's inside  
Is darker than you are

Dragon chasers  
Will make the headlines  
Dragon chasers  
Will make the headlines

You're not to blame

It's this world we're living in  
Where presidents do cocaine  
And sad men seek the dragon

You're not so strong  
Empowered by the dragon  
Just a lost lost soul  
Into oblivion

Dragon chasers  
Will make the headlines  
Dragon chasers  
Will make the headlines
