Wax Tailor

Just 'cause you're hot you can't believe it
Leave it
Just 'cause you're hot you can't believe it

Just 'cause you're hot you can't believe it
Leave it
Just 'cause you're hot you can't believe it

Oh that's right I'll leave it
Leave it
Gonna leave it
That's right I'll leave it

Loved your kiss
When it came with a gift
That was so hard to win
I put in the time
Until I made you mine
Was that so much of a sin

Could have had a devil in your bed
You could have had an angel in your head
Could have had a debate with wit and charm
Could have had a goddess on your arm

But I won't be your doormat
I won't be moulded like that
I won't be here to the bitter end
'Cause I won't be your girlfriend

Just 'cause you're hot you can't believe it

Leave it
Just 'cause you're hot you can't believe it

Just 'cause you're hot you can't believe it
Leave it
Just 'cause you're hot you can't believe it

Oh that's right I'll leave it
Leave it
Gonna leave it
That's right I'll leave it

I put in the time
Until I made you mine
Was that love with a kiss
When it came with a gift

Could have had a devil in your bed
You could have had an angel in your head
Could have had a debate with wit and charm
Could have had a goddess on your arm

But I won't be your doormat
I won't be moulded like that
I won't be here to the bitter end

'Cause I won't be your girlfriend

Just 'cause you're hot you can't believe it

Leave it

Just 'cause you're hot you can't believe it...
