

## Cloud 70

Wax

[Wax:]

Makin' this music to put a little smile up on my face  
'Cause I been frownin' a lot, been down a lot the last couple days  
And this is somethin' that nobody can take away  
Yeah, yeah, yeah, yeah, yeah (Yeah, yeah, yeah, yeah, yeah)

[Herbal T & Wax:]

Yo, check it  
Work all week, weekend, make music  
Been drownin' in the deep end, straight losin'  
Gotta get my mind free and play new shit  
Get the crowd on they feet then they lose it  
Yo, if cloud nine's heavenly, we on cloud seventy  
Me and Herbal T share the microphone brethrenly  
Been doing this since the egg split  
Other rappers still puttin' square pegs where the circle pegs fit  
I stay messin' with Wax like I'm shinin' a car  
Rhyme in the car, too poor to be buying the bar  
It's Herbal T like chamomile, fly like the man of steel  
Foil tricks like oil slicks and banana peels

This music's making me high  
Travel with us through the places we fly  
On the carpet, destination Mercury  
Does your starship take reservations? Certainly

[Wax & Herbal T:]

Yo, Herbal T  
What?  
How you feel?  
Great  
Yeah?  
Yes, how you doin', Wax?  
Marvelous  
Why?  
No stress, feeling so blessed  
I'm numb to all pain  
Further stupefying my dumb and small brain  
It's like the music's giving me a lobotomy  
I'm thinking it's probably similar to winning infinity lotteries  
Nothing's physically stopping me from making music  
And people should use their gift from God for as long as they can use it  
To break it down in layman's terms  
God gave to Herbs a way with words  
And I can't say for sure why y'all ain't get it  
Me and Big Wax, we raw, insane wit' it, like
