

# Higher

Wax

Been down the lonely road  
Been down but got back up and  
Been where you don't come back  
Been through rain and fire  
Nowhere to go but higher  
Nowhere to go but higher  
Nowhere to go but higher  
Higher, higher

Where there's smoke, you know there's fire  
Whenever they go lower, there's nowhere to go but higher  
Spitting quotes from the Messiah, hitting notes like Mariah  
This greatness takes patience, they rushin (Russian) like Stolichnaya  
Anything your soul desire, they'll find a way to provide it  
Just as long as you're willingly making some sacrifices  
The television was our religion, but that no longer satisfies us  
Now social media pacifies us  
Following these packs of liars over the cliffs of confusion  
They chase the fame, but it's just an illusion  
I'm part of the foundation, I got my blood in the blueprint  
My music will take you higher like you substance abusing  
I grab the mic like I got nothing to lose, but still got something to prove  
It's not a job because I love what I do  
Bars, they can't explain how fire sound til I'm around  
I got the whole entire town looking for higher ground

Been down the lonely road  
Been down but got back up and  
Been where you don't come back  
Been through rain and fire  
Nowhere to go but higher  
We going up  
Nowhere to go but higher  
We going up  
Nowhere to go but higher  
We going up  
Higher, higher

Been to the bottom of the barrel, but I crawled out  
Focus on a whole new level, I'm going all out  
Journey to the top of that mountain, took the long route  
Till I hit the pinnacle, there ain't much to talk about  
I can see it, let's get it, I'm committed  
If you dream it, you can live it, I speak on it cause I did it  
I leveled up many levels above  
Any level anyone ever said I was capable of  
Anybody telling you that you can't make a recovery  
Clearly they ain't been fucking with me  
People always trying to knock you down, do not let 'em  
My words lift you so high you would have thought God said 'em  
They like, "he's so raw he must have lost his mind."  
Truth is, I'm going off cause I'm making up for lost time  
This music gets in my bones man, I'm fired up  
The only place that I'm going is higher up

Been down the lonely road  
Been down but got back up and

Been where you don't come back  
Been through rain and fire  
Nowhere to go but higher  
We going up  
Nowhere to go but higher  
We going up  
Nowhere to go but higher  
We going up  
Higher, higher

We won't stop, we've got to keep climbing, higher, higher, higher, higher  
When we're up on top we'll be shining, higher, higher, higher  
Nowhere to go but higher, nowhere to go but higher  
Nowhere to go but higher. Nowhere to go but higher.
