Wax

We could make a move, we could get away  
Ain't nothing to do, it's just a Saturday  
I've been meaning to get you inside my Chevrolet  
Opportunity knocks, don't let it go astray  
Vroom, vroom, vroom, every time I hit the gas we just  
Zoom, zoom, zoom, watching everybody pass, gimme some  
Vroom, vroom, vroom, put your feet up on the dash  
Lay back and relax, out the window you can ash

We just coasting (ooh)  
Miles and miles and miles we go  
Coasting  
You can call it but you already know

Shotgun  
Yeah, that's what you got, hon  
Baby, you the only one  
That I want riding shotgun  
Can you feel that hot sun?  
Soak it all in like lotion  
Yeah, you the only one, one, one, one  
That I want riding shotgun, shotgun, gun, gun, gun

We could stop out at the South Bay  
Walk around Redondo like we own the place  
We on that pier, you whisper into my ear  
I won't say what you said exactly but it was what I wanted to hear  
I'm addicted to your company, your presence is so nice  
When you sit inside my whip the value goes up on the sticker price  
You bring so much heat I'm jealous of the seat  
In paradise singing like a parakeet

Baby, we just coasting (ooh)  
Miles and miles and miles we go  
Coasting  
You can call it but you already know

Shotgun  
Yeah, that's what you got, hon  
Baby, you the only one  
That I want riding shotgun  
Can you feel that hot sun?  
Soak it all in like lotion  
Yeah, you the only one, one, one, one  
That I want riding shotgun, shotgun, gun, gun, gun

I wanna take a ride with you  
I wanna take a ride with you, yeah, yeah
