Decadance

WAYD

Paralysed dreams haunt the night
Our thoughts behind so surreal
Seven ways to die
And only one to stay alive
Dark blood, cold veins, and only laughter remains
We´re twisting hand in hand
Together in decadence
Paralysed dreams...
It´s time to lose control, it´s time to dance
It´s time for decadence
It´s time to lose control, it´s time to dance
It´s time for decadence
Dust on your lips tastes so sweet
Comfortable death I can hear
Sofisticated walls shades the light
N chance to stop or left behind
We´re twisting hand in hand
Tegether in decadence
Let´s try to make it right tonight
We don´t wanna die
Dancing on the shores of fire
We´re gonna taste lithium light
It´s time to lose control...
Ethereal dancing, raindrops are falling down
Confusing my senses, ´m wandering through fields of light
Sophisticated walls shade the light
No chance to stop or left behind
Dark blood, cold veins, and only laughter remains
We´re twisting hand in hand
Together in decadence
Paralysed dreams...
