

I Know About Me Don't Know About You

Waylon Jennings

Some folks walk, some folks run
Some folks start what they can't get done
Getting stuck in the middle is all they do

Some go chasing after thrills
Some come rolling down the hill
And some folks gotta win, some gotta lose

I don't see the need for feeling blue
So little time, so much to do
I'll still be dancing, when the song is through
I know about me, I don't know about you

Some folks are blinded by the light
Some folks only see at night
Some fools have to feel their way back home

Lonely live's with no regret
Holding things they can't forget
Some folks have to live their lives alone

I don't see the need for feeling blue
So little time, so much to do
I'll go out smiling when life is through
I know about me, don't know about you

I don't see the need for feeling blue
So little time, so much to do
I'll still be dancing, when the song is through
I know about me, I don't know about you
