## Just Across the Way

**Waylon Jennings** 

Just across the way a house is dark I can hardly see Just a cross the way lives a girl Who's so in love with me But I'm such a bitter soul Who's mem'ries seemed to always get their way So I live here with my memories.

She lives there with her love just across the way Just across the way I can see her in the window watching me With her face rest to the pain And her eyes look more tearstained every day

But I'm such a bitter soul Who's mem'ries keep standing in her way I'm so lonely with my memories She's lonely with her love just across the way

Just across the way Might as well be in the heavens on a star We're just close enough together To see just what far apart we are But I'm such a bitter soul Who's mem'ries keep standing in the way I'm so lonely with my memories She's lonely with her love just across the way Just acoss the way just across the way...
