

# No Middle Ground

Waylon Jennings

When it comes to lovin', I guess that I've always been blind  
I fall for the wrong ones and leave all the right ones behind  
My sense of survival has kept me in line  
Till I managed to clear out my mind  
But now I'm not certain I'll ever stop hurtin' this time

When it comes to trouble, I guess we've had more than our share  
But this time it's hopeless, with me here and you way out there  
But I looked around, I seen no middle ground  
Well it's drivin' me out of my mind  
There's no compromisin', it's really over this time

Just look where we're standing, it's never been this far before  
There's your side and my side, there's no middle ground anymore  
A sense of survival keeps me from your side  
And you won't come over to mine  
Pride may be foolish, but pride is the winner this time

I looked around, I seen no middle ground  
Well it's drivin' me out of my mind  
There's no compromisin', it's really over this time  
There's no middle ground this time
