

## Old Church Hymns and Nursery Rhymes

Waylon Jennings

Blow on you restless wind  
Up to your old tricks again  
Bear down you Texas sun  
You make the desserts dry  
And the brush fires run

Splintered wood, rusty chains  
This old front porch swing remains  
A pendulum of memories  
Goes back and forth on a summer breeze

Singing old church hymns and nursery rhymes  
From the days way back before my time  
With a little child upon my knee  
Singing every sweet word back to me

Look how far I had to come  
To get back where I started from  
With a child's wisdom passing time  
Singing old church hymns and nursery rhymes

I've run the race, I've walked the wire  
I paid the price of my desire  
And the only time I've known it all  
Is just before I took a fall

So howl you lone coyote song  
Fade to sapphire sky of dawn  
Count me in the lucky men  
To send the world around again

Singing old church hymns and nursery rhymes  
From the days way back before my time  
With a little child upon my knee  
Singing every sweet word back to me

Look how far I had to come  
To get back where I started from  
With a child's wisdom passing time  
Singing old church hymns and nursery rhymes
