

Wild Ones

Waylon Jennings

Straight out of nowhere
And a little bit out of our minds
We were courting disaster
With one foot over the line
It was one for the show
And two for ol' Shorty and me
We were the wild ones
We had the town up a tree

We were the wild ones
The ones they couldn't control
We were survivors
Good hearts, body and soul
We were the winners
Cause we didn't know we could fail
We were the wild ones
And we had the world by the tail

She was a lady
When a lady wasn't easy to be
Hangin' in limbo
She started hangin' with me
We were the music
Cause we had a song we could sing
We were the wild ones
And we had the world on a string

We were the wild ones
The ones they couldn't control
We were survivors
Good hearts, body and soul
We were the winners
Cause we didn't know we could fail
We were the wild ones
And we had the world by the tail

We were the wild ones
The ones they couldn't control
We were survivors
Good hearts, body and soul
We were the winners
Cause we didn't know we could fail
We were the wild ones
And we had the world by the tail

We had the world by the tail.
