

## After All

Waylon

Weren't you so strong  
That you played with fire  
And you didn't get burned  
By your own desire

But after all  
That you've said and done  
You had to fall  
Like everyone  
Like everyone

Isn't it so hard  
When you're going down  
To really believe  
You'll turn it back around, round and round

But after all  
You've said and done  
You had to fall  
Like everyone  
Like everyone

The blazing sun looks you in the eye  
When you crash down through the sky

But after all  
That you've said and done  
You had to fall  
Like everyone  
And after all  
You've said and done  
You had to fall  
Like everyone  
Like everyone  
Like everyone
