

# Hey!

Waylon

I was blinded by the light  
'Cause I was so misty eyed  
I was looking for love  
And she was right on time

I was shaking, she was too  
Didn't know what I should do

It was late on a Sunday  
Tell me is that a crime?

Can I hold you for the last time  
Hold you for the last time  
Can I hold you for the last time  
Then I'm gone

Hold you for the last time  
Can I hold you for the last time  
Can I hold you for the last time  
Then I'm gone

Hey, I call you in the morning  
I call you in the evening  
I see you around, round, round, round  
Hey... you don't have to love me  
You just have to like me  
Just lay me down, down, down, down

I don't wanna compromise  
I don't have to tell you lies  
Let's not get emotional and rationalize  
Don't you go imagine  
That I whisper something crazy like I love you  
Stranger things have happened to the two of us

Can I hold you for the last time  
Can I hold you for the last time  
Let me hold you for the last time  
Then I'm gone

Hey, I call you in the morning  
I call you in the evening  
I see you around, round, round, round  
Hey... you don't have to love me  
You just have to like me  
Just lay me down, down, down, down

If you were the one for me  
Would I even recognize (oh no)  
I could be your only love  
Be your only for tonight
