

# The World Can Wait

Waylon

I've been chasing dreams  
Burning time  
Both hands of the candle are flying by  
Finally it's just you and me  
Away from everyone telling us what to be  
Outside they scream  
Those crowded streets  
And I love the silence when you're next to me

And baby the world can wait  
Just hold on tight  
Don't forgot to breathe  
And leave it all behind  
Make it all worth while  
Spend the day wrapped up in this moment  
Don't let it slip away

Baby the world can wait  
Baby the world can wait

Right here, right now  
Let's promise this  
When the candle burns too fast  
We slow it down with a kiss  
Outside the door, oh, the thieves of time  
Tryna steal what's yours and they tryna steal what's mine

And baby the world can wait  
Let's hold on tight  
Don't forgot to breathe  
And leave it all behind  
Make it all worth while  
Spend the day wrapped up in this moment  
Don't let it slip away

Baby the world can wait  
Baby the world can wait

Just swear to me baby  
When life get's too crazy  
We'll stop

And baby the world can wait  
Just hold on tight  
Don't forgot to breathe  
And leave it all behind  
Make it all worth while  
Spend the day wrapped up in this moment  
Don't let it slip away

Baby the world can wait  
Just hold on tight  
Don't forgot to breathe  
And leave it all behind  
Make it all worth while  
Spend the day wrapped up in this moment  
Don't let it slip away

Baby the world can wait  
Just hold on tight  
Don't forgot to breathe  
And leave it all behind  
Make it all worth while  
Spend the day wrapped up in this moment  
Don't let it slip away

Baby the world can wait  
Baby the world can wait  
Baby the world can wait  
Baby the world can wait
